would be an honor to
pet

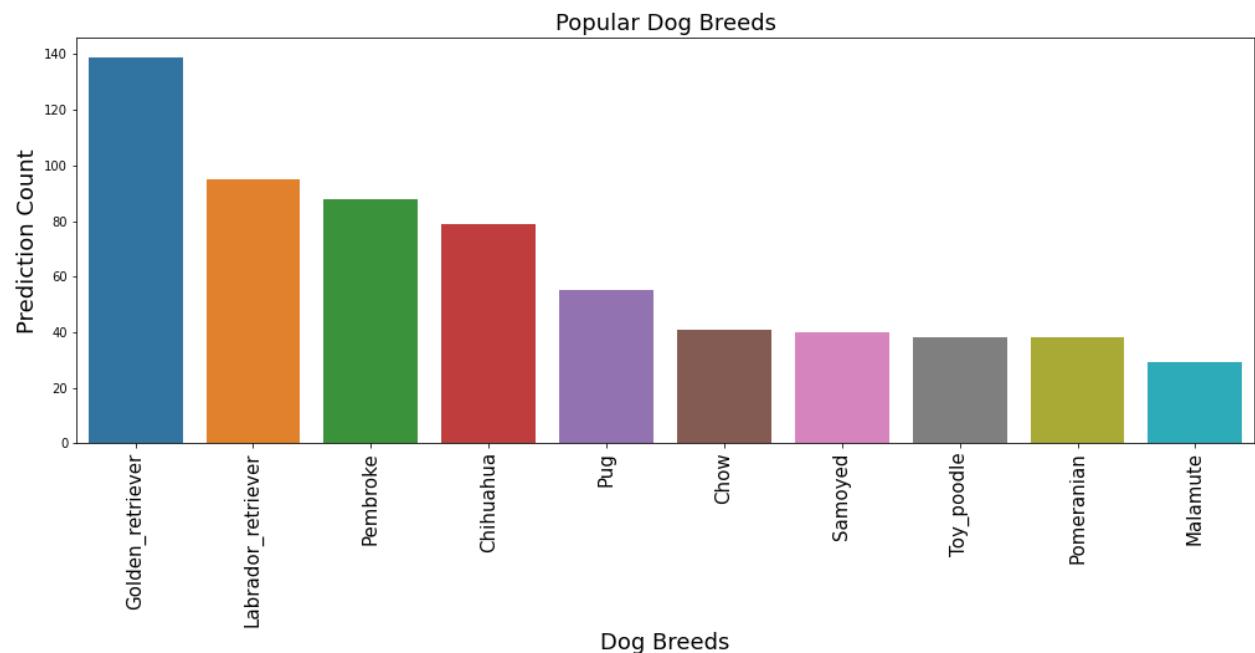

This is Charlie. He has literal heart-eyes. 14/10 would be an honor to pet. WeRateDogs is the destination if you want to know more such stories.

WeRateDogs is a Twitter account that rates people's dogs with humorous comments about the dog. These ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc. Why? Because "they're good dogs Brent." WeRateDogs has over 9 million followers and has received international media coverage.

So, what to do with these ratings? With dogs the best common question has to be which is the most popular dog? Can we get any relationship between Retweets, Favorites? etc.

Most Popular Dog Breeds

Based on an analysis on over 5000 tweets from the WeRateDogs twitter handle, the most popular dogs are Golden Retriever (140 mentions) Labrador Retriever(95 mentions) and Pembroke (90 mentions) respectively. These are closely followed by Chihuahua, Pug, Chow, Samoyed, Toy_poodle, pomeranian and malamute which make the top ten.

Taking a keener look on the top breed i.e Golden Retriever to see which dogs make up the top 5 most loved (with highest favorite/likes). In the top position we have ...

The second highly liked dog was...

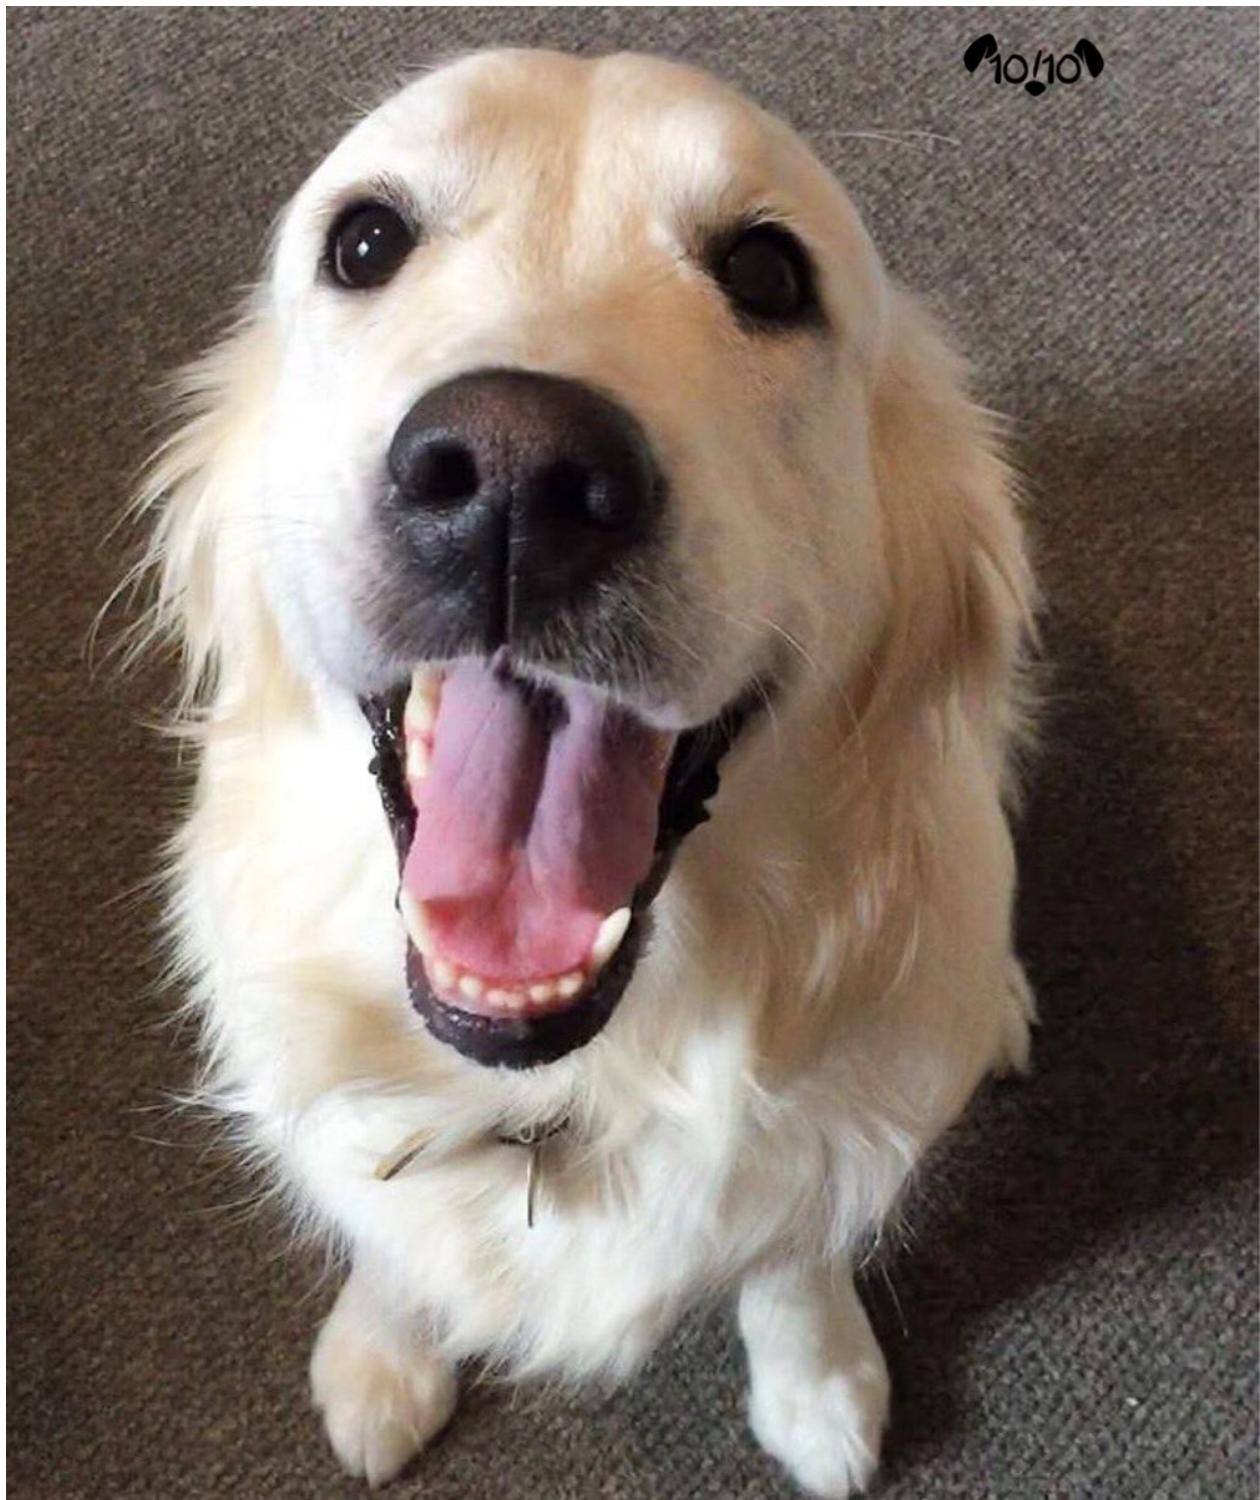

And third ...

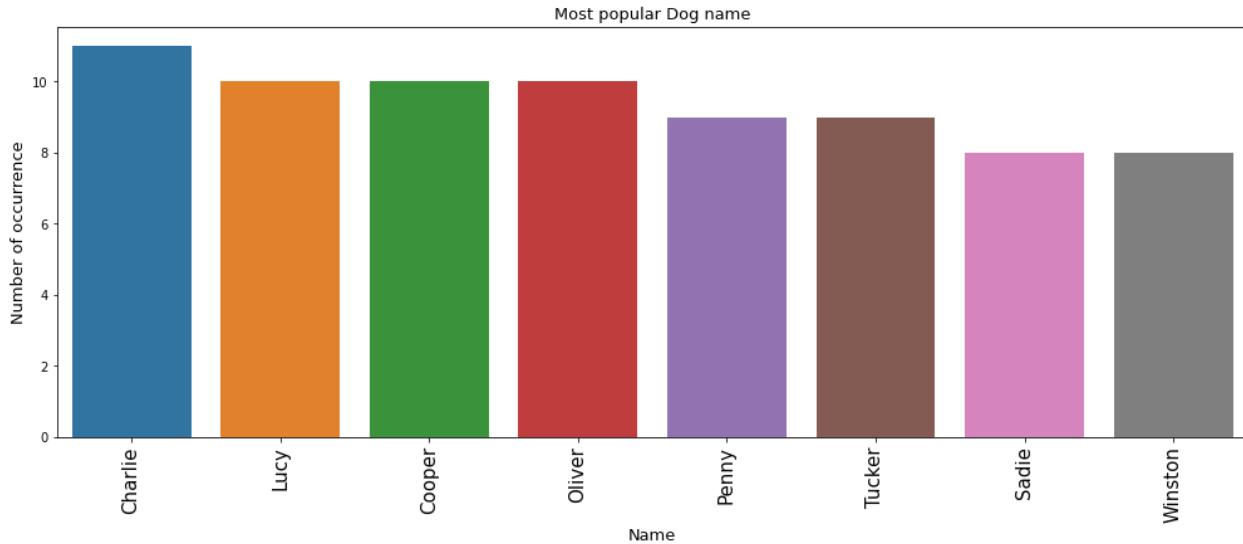

And fourth ...

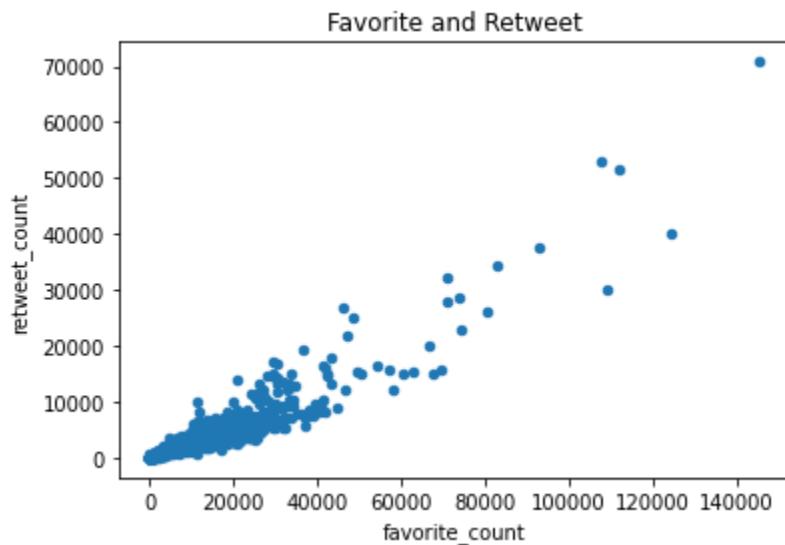

And finally at the fifth position we have

Now onto the most popular dog names we have Charlie as the most frequent dog name with 12 instances followed by Lucy, cooper and Olivier at 10. They are closely followed by Oliver, Penny, Tucker, Sadie and Winston at top eight.

Do photos that are liked also retweeted? Yes, there is a positive correlation between favorite and retweet i.e. the photos that are liked are most probably also retweeted.

In conclusion, if you are considering having a dog and posting in WeRateDogs, I recommend a Golden Retriever named Charlie.
